

Home Care Packages

Now that you have been allocated a Home Care Package you have some choices to make.

You need to choose:

- A home care service provider, such as Community Care TASMANIA
- What services you will need

Community Care TASMANIA

8 Broadland Drive, Launceston 7250
Tel 6334 0990 or 1300 722 400
cct.org.au or find us on Facebook

Putting your care first

These services will make your home care package a reality.

Designing a care plan to suit you

Once you are assessed as needing a home care package the government provides significant funds. You may be expected to contribute to the package. Therefore the government funding plus your contribution, equals your total package. It is designed to enable you to get the exact services you need to stay in your own home.

You have a package because the government recognises you need prompt home care and has provided funds for your care services.

Community Care TASMANIA can help you plan a budget and make some suggestions about types of services that may suit you. Meeting your care needs promptly is important to us and the government.

Talk to our friendly and professional staff and they will help you design a care plan and budget that suits your home care needs.
